

# DISCOVERING seaweed

## 1 Project card

Locate the five major Oceans on the Earth

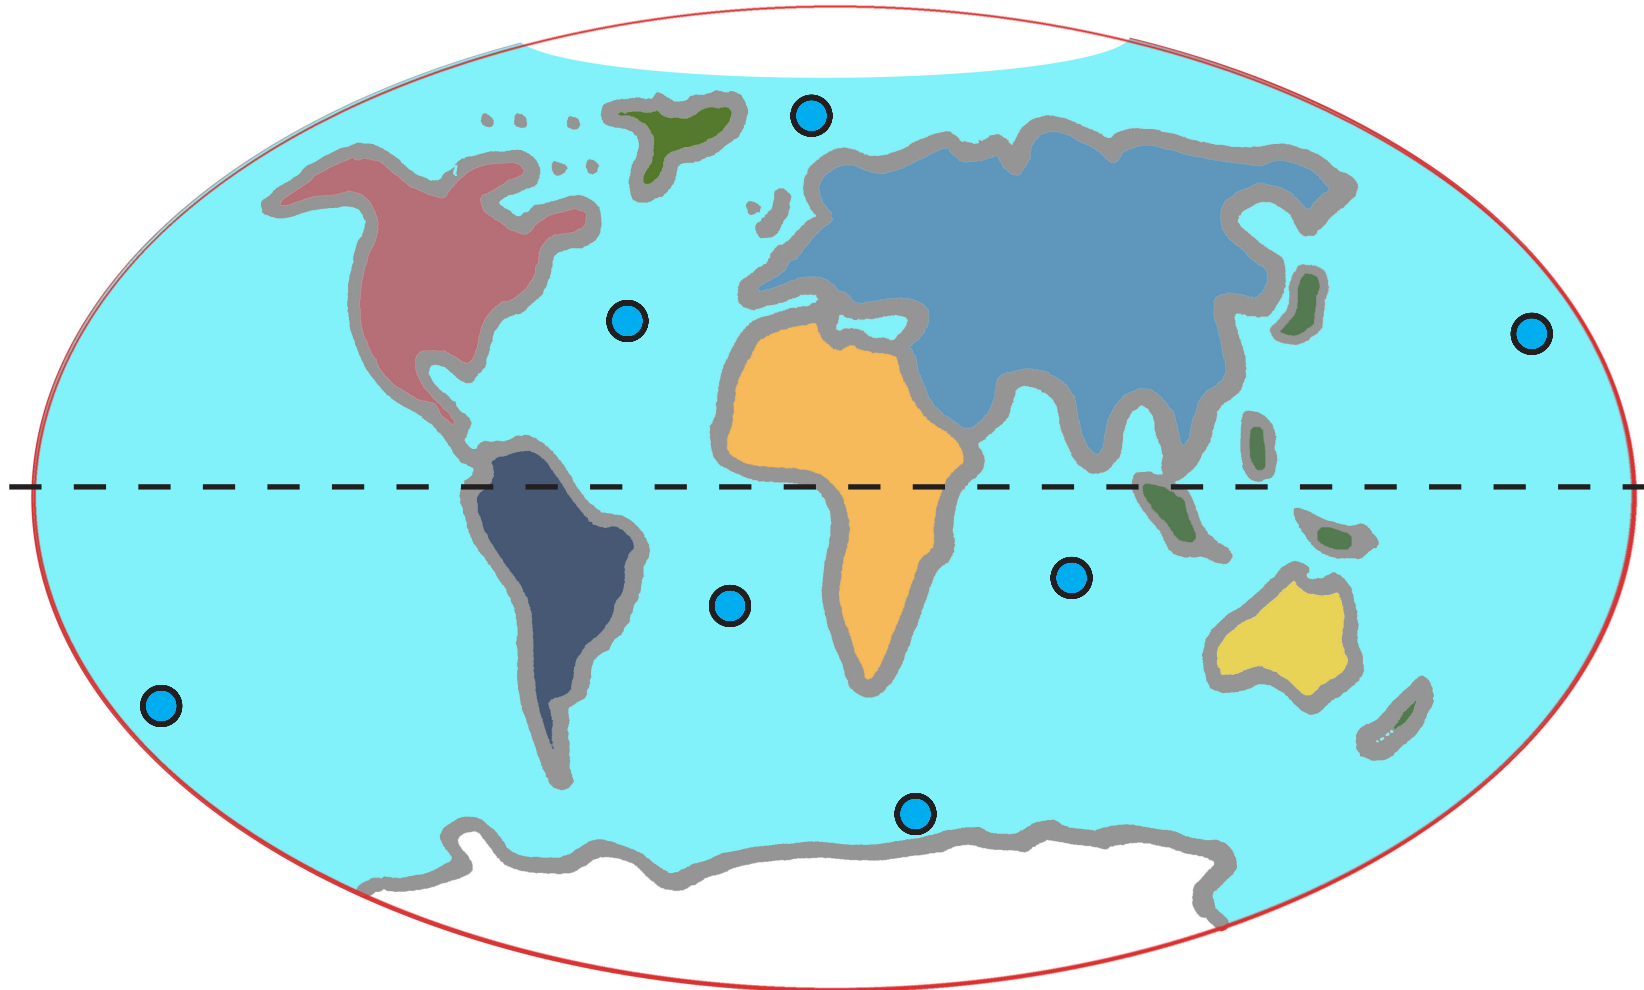

Identify the six oceans on a globe. On a large, open space draw a map of the major continents with crayon or string. Write the name of each ocean on a piece of card. Read the name of one ocean and the student has to jump to that ocean without touching a continent. Take turns.

# DISCOVERING seaweed

## 1 Project card

Locate the five major Oceans on the Earth

Indian Ocean / North Pacific Ocean / South Pacific Ocean / Arctic Ocean / North Atlantic / South Atlantic
